DETAILED ACTION

Remarks

This Office Action fully acknowledges Applicant's remarks made on January 18th, 2007. Claims 1-15 are in condition for allowance. Claims 16-28 have been cancelled.

Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest a method of reading an array of two or more ligands to detect any binding complexes with an optical reader in which an airflow is passed through a chemical-scavenging filter and onto an array.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art of record teaches optical array scanners in which no airflow is passed through a chemical filter and onto an array that is not of two or more ligands.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure as background information related to applicant's field of endeavor.
